### LIGHTING PLANT LOSES.

Seattle's Municipal Plant Is a Millstone Around the Neck of the Other City Departments. It has cost the city of Seattle more

than \$117,000 to keep the municipal light and power plant running. This represents the loss on operation and does not take into account the tremendous costs for extensions or improvements made on the plant.

From a thorough examination of the lighting plant records it develops that the total receipts from the date the plant started have amounted to only \$640,000, all sources of revenue considered. From fight and power supplied but \$612,000 has been paid in.

Ninety thousand dollars has been transferred from the water department to the light and power plant fund, \$88,261.30 has been raised by general taxation, and \$120,694.90 has been paid in interest charges for the benefit of the lighting plant.

During the past month it has been necessary to transfer \$150,000 from the general fund to take care of bills rendered against the light department, Sidewalk Improvement Bonds and it is admitted by indirectal that these expenditures have and it is admitted by municipal offibeen frequent in the past.

Disregarding the cost of improvements, the expenses for extension and the various light department bond issues, the figures made public through an examination of the lighting department's books demonstrate that the municipal light plant has never paid even operating expenses, despite the fact that the city credits its light plant with street lights at a price higher than paid by any other municipality in the northwest.

It is demonstrated by an examination of the lighting department books that, though bond issues have raised but \$1,440,000, there has already been expended in the construction of the by Catarrah, which is nothing but an inflammed power plant \$1,758,845, and a part of the proposed bond issue of \$800,000, if authorized, will have to go to make of deafness (caused by catarrh) that cannot be good this deficiency. ### PLUMP FOLKS AND THIN FOLKS

Samose Will Make People Fat-"Money Back If it Fails," Say J. Jas. Wood & Son.

The line of beauty is a curve. Wemen may be thin and graceful, but not thin and beautiful. There is a vast number of pale, thin, scrawny people who are all brains and nerves, but without the strength and health that accompanies the standard weight. Good flesh and perfect health go together. A true fleshforming food like Samose is absolutely neces-

sary to many people. This remarkable discovery comes in tablet form, and when taken after meals mingles with the food and helps it to assimilate, so that it makes rich blood and pleasing plumpness. No one can use this wonderful flesh-forming food for 10 days without a noticeable gain in flesh and strength. Carefully kept statistics show that out of every hundred people who begin the use of Samose 98% increase in weight and

their health and strength are restored. J. Jas. Wood & Son have so much confidence in this remarkable flesh-forming food and health restorer that they are willing and glad to allow any customer to deposit 50 cents with them and take home a box of Samose with the understanding that if it does not give a marked increase in good, firm flesh the money will be returned without any questions.

Uncle Tobey in Louisville Home and Farm LESSON I.

See the man.

The woman is by his side. The Preacher has a book in his hand.

The man and woman are getting married.

The man will plow in the field. He will smoke a pipe at night.

The woman will wash dishes and skillets and

She will also milk the cows.

After she goes to bed she will ask the man if he put the cat outdoors.

In ten years the woman will die.

She will leave the man seven children and an old calico dress.

LESSON II.

See the man. It is the same old farmer. A woman is by his side.

She is a vigorous widow. They are getting married.

She will cook his food.

She will also wash and iron his clothes.

Sometimes she will get angry. Then she will spank his children.

When the children are all "raised" and gone and the hard work done she will die.

LESSON III. See the man.

It is the same old farmer.

He wears glasses now. He is also barefooted on the top of his head.

He is holding a young girl by the hand. It is his third wife.

Does she wash dishes and pots and skillets?

his nose with a straw.

LESSON IV. The man is lying on the bed.

Is it the same man?

Yes; it is the same old farmer. He is dead now.

They are going to bury him.

His young wife is by his side.

Is she weeping?

She is weeping a little.

What will she do now? She will marry a second hand husband.

### WAR TIME INCIDENT

Writer Relates How The Enquirer Was Confiscated by Official Idiot

The Cincinnati Enquirer was a power in Kentucky at one time, but doesn't stand as high in the regard of the Democracy now.

It wasn't allowed to circulate in the State at one time during the War. The writer resnembers going over to Covington from Cincianati with a young gentleman, well known about here, one day,

There were no bridges then, and when we got off the ferryboat a soldier overhauled us and demanded The Enquirer which our friend had in his hand.

There was no alternative but to fork it over. This gentleman, a most companionable and handsome one, a native of this county, but living away for many years, was, a few months ago, as I saw by the papers, brought to Maysville for interment.
